Your Name

City | you@example.com | example.com

EDUCATION

Example University **Aug 2024 – May 2028 (Expected)**

Bachelor of Science in Computer Science *City*

- Awarded the Example Scholarship

EXPERIENCE

Example Company **May 2025 – Aug 2025**

Software Engineer Intern *City*

- Built an internal dashboard that replaced manual spreadsheet updates for the support team, **cutting weekly reporting from hours to minutes**.
- Added validation to the `orders` API so malformed requests failed with clear errors instead of corrupting records.
- **Technologies:** TypeScript, React, PostgreSQL

PROJECTS

Example Project **Jan 2025 – Present**

Short Plain-Language Descriptor | *Website* *Swift, Python*

- Built an app that solves a real problem for a named group of users, growing to **a real number of active users**.
- Designed the main screen around what users need first, explaining the judgement behind the choice rather than listing features.

CO-CURRICULAR ACTIVITIES

Example Club **Aug 2024 – Present**

Committee Member

- Organised a workshop series for 100+ members.

SKILLS

- **Languages:** TypeScript, Python, Swift, SQL
- **Frameworks & Tools:** React, Node.js, PostgreSQL, Docker, Git
